Quality Paints Since 1845
MATHYS®

timeless quality

create your own ambience

Anyone even vaguely familiar with fashion knows what cashmere is. This fine, soft wool from the undercoat of Himalayan mountain goats was brought to Europe by the British in the 17th Century. No one loved cashmere more than Empress Josephine de Beauharnais, wife of Napoleon Bonaparte. It was due to her that cashmere shawls - in lively, colourful designs - became all the rage among the French nobility.

Cashmere® is still very much admired. Only the loveliest shawls and finest women's and men's clothes are made of cashmere. This is unsurprising considering its soft, light and appealing texture. Cashmere® represents natural purity, unshamed luxury, soft seduction and utter indulgence. Cashmere® is timeless quality.

Mathys® could not have chosen a better name for its new designer paint line. Cachemire® is a range of 120 colours and 3 designer paints.

Cachemire® is to your interior what cashmere is to your clothes: luxury, seduction, indulgence. Cachemire® by Mathys® is also timeless quality.

Colours and gloss levels determine the mood of a room. A colour can transform the ambience from romantic to bold, from classic to contemporary. A matt paint conceals imperfections and absorbs reflections. A subtle gloss adds an extra dimension to an interior. It is all about taste and personality, about knowing the type of emotion you wish to impart to a space.

This is why Mathys® launched its Cachemire® designer colour and paint collection. We offer even more options for you to create the interior that is perfect for you.

Discover the intense beauty of our Cachemire® colours. Feel the textures of our designer paints. Cachemire® paints are of the highest quality and their designer dimension adds unparalleled richness to the 120 Cachemire® colours.

Have fun on your creative journey!

cachemire® TIP

The impact of light on the paint structure and colour intensifies and improves its appearance.

The type of light, the angle of incidence and the space itself all contribute to bringing colours and textures to life. A colour sample can help you to make your final colour choice. Discover our Cachemire samples folder and create your own style and mood.

superb colour combinations

The Cachemire range was expertly put together by experienced colour specialists. Always on a quest for new nuances, they designed a palette of 120 colours that will give you an idea of what Cachemire can mean for your home. Colours that can give your interior an almost palpable aura.

The Cachemire® colour card allows you the space to create your own brilliant compositions. The colours are even more vibrant and create more ambience when they are combined. Will you choose colours from the same colour group or go for a bolder combination of one or more contrast colours? Whatever you choose to do, the result will always be stunning.

For more inspiration, go to your Cachemire® dealer and ask for our sample book.

For typographical reasons there may be color differences between the colors on this page and the actual color samples.

the Mathys® design collection

Imitation concrete for
a pure and modern effect

Traditional effects for
a modern interior

Metallic paints for a
rich shimmering finish

cachemire® mat intense

conceals imperfections and absorbs reflections. It is durable, coats perfectly and has an incomparable beauty. An intense matt gives your rooms a soft and gentle feel.

cachemire® mat velours

has a subtle shine that adds an amazing dimension to a room. It is washable, coats perfectly and very high quality. A satin finish lends a chic look to a room.

cachemire® laque mate

can be diluted with water and is a high quality enamel paint with a subtle and surprising matt finish. The final touch to give your home that extra dimension.

cachemire® beton

can be used to create a classic or clean and modern atmosphere. All this depends on the way in which it is applied and the choice of colour. The colour palette doesn't simply give you the option of imitating concrete tones but also that of using trendy colours to create accents.

After application Cachemire® Beton can be finished off with our Cachemire® Beton Finish protective varnish or with Cachemire® Metallic Finish for a luminous finish.

A clean and simple basis for diverse styles.

cachemire® sable

creates a decorative sand effect that gives all your walls a warm, traditional yet contemporary feel.

Masks slight unevennesses by covering with a finely textured layer with depth and a tactile aspect.

Use Cachemire® Sable Primer as bonding layer for an even end-result.

Cachemire® Sable Finish is a transparent varnish that gives extra protection for the decorative sand structure. It is washable, scratch-proof and hard-wearing.

cachemire® metallic

is infused with metallic particles, reflects light and instantly creates a rich shimmering metallic finish. Create a new accent wall or add a metallic touch with Cachemire® Metallic Finish. It can be applied as a transparent topcoat.

Metallics are being used as colour and it's a trendy finish today. Cachemire® Metallic also offers 3 metallic colours: Silver, Antique Gold and Bronze. They add a rich and elegant metallic finish.

It isn't only the colour of the paint that determines the mood of your home but also its composition.

Cashmere® paints are high quality and their "Design" aspect gives an unparalleled richness to all 120 Cashmere® colors.

All Cachemire paints are water based and have a low VOC content. Paint with a heart for the environment that doesn't compromise on quality.
